

Training workshop

Partnership risk management: Training workshops

What is it?

This one day interactive course is about helping you to get to grips with managing the risks of partnerships and managing the risks to partnerships.

How do you approach the training?

We deliver the training during a one day interactive course. We demonstrate through proven tools, techniques and working groups each of the aspects of managing partnership risks.

Why should I attend the course?

We cover the whole range of aspects of managing the risks from partnerships as well as the risks to partnerships such as;

- Defining a partnership
- Prioritising the many partnerships that your organisation might participate in
- Deciding your action plan based on the range of partnerships and the riskiness of them
- Working through the differences of working with partners as opposed to your own people

Please contact us for a full agenda if you are tempted but not sure whether to commit.

Who is the course for?

This course is designed for management and partners at all levels, particularly Partnership Managers, Risk Managers and Auditors.

What is the output from the course?

You come away with a good idea of how you can improve or structure your approach to managing partnership risks. At the end of the course you get a CD rom with all the course materials, tools that you have used and the output that you will have generated during the course.

When and where are you running the courses?

We are running the courses on the dates as shown here;

Date	Venue
10 February 2010	London
28 April 2010	London
23 June 2010	London

How do I book?
